

MARINA GELLER YAMAGUTI

Paris, France • +33 7 43514486 • m.gelleryamaguti@gmail.com • [linkedin.com/in/marina-yamaguti](https://www.linkedin.com/in/marina-yamaguti)
Available May - August 2027 • Expected graduation August 2028.

EXPERIENCE

- Mobile Engineer, **Globo*** • Brazil Dec 2025 - Aug 2026
- Built and maintained GloboID's iOS and Android authentication SDKs and APIs for all Grupo Globo products; joined as a Go backend intern, hired full-time after six months.
 - Built TV sign-in over local Wi-Fi and profile-completion flows to protect minors' data under Brazil's child online-safety law (ECA Digital).
 - Supported a distributed, fault-tolerant system handling millions of authentication requests during major live events in Latin America.
- iOS Engineer, **Hopcast*** • France Feb 2025 - May 2025
- Built device discovery and automatic peer-to-peer transfers with Multipeer Connectivity, integrating an offline sharing SDK into a SwiftUI proof of concept for low-connectivity areas.
 - Improved transfer speed, reliability and the sharing UI in close collaboration with the backend team.
- iOS Developer, **Apple Developer Academy*** Feb 2023 - Dec 2024
- Shipped 5+ App Store apps with SwiftUI, UIKit, HealthKit, Core ML and CloudKit.
 - Product Owner in Scrum teams; ran an iOS workshop for girls.
- Digitalization Portfolio Program, **SAP*** • Brazil Sep 2024 - Oct 2024
- Women-in-tech program; trained in Java, SQL, unit testing, Git, Agile and UX at SAP Labs Latin America.
- HCI Research Scholar, **DaVint Lab, PUCRS*** Aug 2022 - Dec 2022
- Built a library of 30 interaction patterns for multilingual interfaces and a website to publish it.

EDUCATION

- M.Sc Computer Science (HCI), **Université Paris-Saclay** Sep 2026 - Aug 2028 (expected)
IDEX Excellence Scholarship
- B.Sc Software Engineering, **PUCRS** Feb 2022 - July 2026
Ranked 1st in class • GPA 9.046/10 • Best Undergraduate thesis
- Exchange semester in Information Systems, **Grenoble INP – Ensimag** Jan 2025 - July 2025
- Associate's Degree in Digital Design, **ULBRA** Feb 2022 - Jun 2024

PROJECTS

- VanGO** • *React Native, FastAPI, AWS*
- Project manager of an 18-person team; built real-time trip tracking, maps and push notifications. Published on the App Store.
- Pom: Kitty Timer** • *Swift, SwiftUI*
- Reached #2 in Productivity on the Brazilian App Store in its first week; 8 languages.
- Iris** • *Swift, Figma*
- Award-winning iPad game on visual impairment and assistive technology.

AWARDS

- WWDC24 Swift Student Challenge Winner, Apple
SBC/RS Academic Merit Award and Meninas Digitais Award, Brazilian Computer Society
